

Kashif Rezwi

Full Stack Developer | React, Node.js & TypeScript

kashifrezwi850@gmail.com | +91 9883909187 | Kolkata, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend-focused Full Stack Developer with 2+ years of experience contributing to customer-facing SaaS products in startup teams. Works across React, Next.js, JavaScript, TypeScript, Node.js, REST APIs, databases, asynchronous workflows, and third-party integrations. Contributes to user-facing product features from UI through APIs and integrations, with experience in production debugging, deployments, launch support, and AI-assisted features.

PROFESSIONAL EXPERIENCE

Full Stack Developer
Brand Exponents Creatives Pvt Ltd

Oct 2023 - Aug 2025
Remote - Kolkata, India

Swipe Pages | [Product page](#)

- Contributed across frontend and backend to React, Next.js, TypeScript, and Node.js features for a production landing-page and workflow-automation SaaS platform.
- Worked on workflow dashboards, reusable templates, drag-and-drop builder features, and the frontend and backend of the guided Genie AI page-generation experience.

Swipe One | [Product page](#)

- Helped build CRM, campaign, and workflow features for Contacts, Leads, Contact Properties, and email and WhatsApp use cases spanning product UI, configuration, backend processing, and integrations.
- Helped redesign the workflow builder into a guided, template-led sequential flow and contributed to AI-assisted workflow generation that mapped natural-language intent into valid configurations.
- Worked with background jobs, queues and consumers, webhooks, notifications, and third-party integrations; supported the first stable release and two AppSumo campaign periods through debugging, hotfixes, deployments, monitoring, and feedback-driven iteration.

Frontend Developer Intern
Nexus Software Solutions

Jun 2023 - Aug 2023
Remote - Kolkata, India

- Built responsive React and JavaScript interfaces with hooks, Redux, reusable UI patterns, and REST API integration for client-facing applications.
- Contributed to the UBMe event-management product, implemented common CRUD interactions, and collaborated on WebSocket-based real-time functionality and event-driven UI updates.
- Worked with designers and senior engineers on reusable components, UI libraries, and consistent interface patterns.

SKILLS

Languages: JavaScript, TypeScript

Frontend: React, Next.js, Redux, TanStack Query, Tailwind CSS, responsive UI, reusable components, state management

Backend and APIs: Node.js, Express, NestJS, REST APIs, WebSockets, webhooks, background jobs, and third-party integrations

Data and asynchronous systems: MongoDB, PostgreSQL; working knowledge of Redis, RabbitMQ, ClickHouse, message queues, and consumers

Delivery: Git, production debugging, hotfixes, deployments, monitoring; working knowledge of Docker, GitHub Actions, and CI/CD

PROJECTS

Code Review Agent (Personal project) | [GitHub](#) | [Live](#)

Built a full-stack developer tool with Next.js, NestJS, TypeScript, PostgreSQL, Redis, background jobs, SSE, GitHub OAuth, structured streamed reviews, multi-agent pull-request analysis, and RAG-based coding standards.

Perplexity Clone (Personal project) | [GitHub](#) | [Live](#)

Built a full-stack AI answer engine with Next.js, NestJS, TypeScript, PostgreSQL, Prisma, and Tavily for web-context retrieval, cited answers, persisted threads, and follow-up questions.

EDUCATION

Bachelor of Computer Applications | Amity University, Noida

Online / Distance | Jul 2025 - Present

Full Stack Web Development | Masai School, Bangalore

Bootcamp | Feb 2022 - Nov 2022
